

Photobook Publishers

This list of photobook publishers has been selected from rosters of participating publishers at photobook fairs and festivals, competitions, year-end “Best of” lists, photobook-focused newsletters and blogs. This offers you an opportunity to study specific brands; if interested in submitting your project search for their stated “Submission Guidelines.” If any of these publishers are open to reviewing proposals, their brand-specific guidelines will be prominently noted with full details and dates of any specific submission periods. Others may state that they are **not** accepting unsolicited submissions; if so, watch for those publishers to be participating in portfolio review events as an acceptable path to presenting your work to them.

Whenever possible, attend photobook fairs in person to study a publisher’s recent titles, examine materials utilized, quality of design and other attributes. Spend time on the website of each fair whether you attend or not and familiarize yourself with these brands towards building your short list of desired publishers for your specific project
