

## Photography And Photobook Fairs

“Fairs” are characterized by a specific roster of vetted, established vendors focused on connecting with attendees towards sales. Fairs are often ticketed events with a single destination.

Many fairs offer related lecture series and/or panel discussions under the same roof. Some fairs dedicate space for photobook vendors such as Photo London, with Paris Photo’s signature Paris Photo – Aperture PhotoBook Awards.

Artist-made and limited-edition photobooks offered by fine presses or the artist themselves are the focus of many fairs noted within (tagged limited-editions), such as biennial Tropic Bound Artist’s Book Fair (2023, Miami, FL) and CODEX Foundation’s biennial Fair and Symposium (2024, Oakland, CA).

We encourage exploring all the Fair and Festival offerings in your region to expand your perspectives on photobooks today.
