

## Photography And Photobook Festivals

“Festivals” are public gatherings that may include exhibitions, lectures, workshops, portfolio reviews and/or awards. Those listed within have demonstrated the inclusion of photobook-specific programming; study each to learn of their offerings.

Most festivals listed here celebrate photography with some expanding to include traditional publishing through trade publishers and small presses, with less focus on artist-made publications. Long established festival examples include Les Rencontres de la Photographie (Arles, France); Format Festival (Derby, England); and FotoFest including “The Meeting Place” portfolio reviews (Houston, Texas).

We encourage exploring all the Festival and Fair offerings in your region to expand your perspectives on photobooks today.
